

FORLOH MEN'S SOLAIR HOODED LONG-SLEEVE SHIRT

is a warm-weather sun shirt for all outdoor adventures. The lightweight shirt has four-way stretch for mobility and comfort for all-day wear. It features

FORLOH's flagship Brrr Pro minerals built into the fabric to keep you cool and dry, while Polygiene Stay Fresh antimicrobial and Odor Crunch scent-control systems help you stay odor-free. The SolAir shirt also boasts an innovative hooded design and UPF 50+ protection from prolonged sun exposure. Available in sizes S-3XL. MSRP \$99; forloh.com

The **SPOT ZERO MOBILE PRO MINI WATER PURIFIER** is

designed to provide boats from 20 to 45 feet access to high-quality mobile water purification. Its compact design and unibody aluminum alloy frame, which make it durable and corrosion-resistant in harsh marine environments, give the Spot Zero Mobile Pro a sleek look. An easy-to-use backlit LCD touchscreen displays performance data. Other features include dual marine-grade polyester handles with rubber grips, and non-marking, non-slip, rubber feet that keep the unit on the boat's deck without it sliding or bouncing around while underway. MSRP \$3,499; spotzerowater.com

BLITHE HONEST SUNSCREEN

provides SPF 50 protection against harmful UVA and UVB rays. Easy to apply, it leaves no white cast and absorbs quickly. Cruelty-free, gluten-free, paraben-free, hypoallergenic, vegan, and more, it is safe for all skin types. This sunscreen doubles as a natural moisturizer to keep skin hydrated and replenished. Formulated without Oxybenzone and Octinoxate that are detrimental to coral reefs and ecosystems, it's also safe for marine and aquatic life. MSRP \$26; blithecosmetic.com

The **AQUA LILY PAD** is a floating foam island where friends and family can splash or lounge on the water together. Engineered with marine-grade polyethylene foam and patented FlexCore technology, Aqua Lily Pads offer optimal support on the water for large groups. The FlexCore technology allows pads to roll up easily for storage and unroll flatter faster. A proprietary UV graphic film ensures pads last up to 10 years, even in hot climates. Aqua Lily Pads come in four lengths—9, 12, 15, and 18 feet—and include a pre-installed tether system and storage straps.

MSRP from \$374; aqualilypad.com

NOCS BINOCULARS are designed to be held effortlessly and pack easily, making them perfect for days on the water. Fogproof and IPX7 waterproof, they are submersible for up to 30 minutes. Crystal-clear optics and 8x magnification provide edge-to-edge image clarity. The high-impact rubber grip fits in hand and protects the binoculars. Bonus: Snap a photo through them; they serve

as a 400mm camera lens for your smartphone.

NoCS come with a drawstring pouch, neck strap, and a lens cloth.

MSRP \$95; nocsprovisions.com

ARGO is a free navigation and social boating app. It offers boaters throughout the U.S., Canada, and the Caribbean a safer and easier way to navigate by incorporating unlimited NOAA/USACE charts, auto and manual routing, robust Captain's Log, and social features to connect with friends and club members on the water. Argo is available for free from the App Store or Google Play for your smartphone or tablet, and a premium version with expanded features is available for purchase; argonav.io

The easy-to-install **GLOMEX AVIOR VT300 OMNIDIRECTIONAL TV/FM ANTENNA** from **GA COMMUNICATIONS** brings analog and digital broadcasts on board. Compact and lightweight, it's specifically made for smaller boats that can't accommodate large TV antenna domes and only need short-range reception. The amplifier allows the antenna to have an increase in gain with a 24.5 dB average to receive vertical and horizontal polarized TV signals simultaneously from 360 degrees. It runs on 12V DC, has an impedance of 75 ohms, and a frequency range of 40/890 MHz. Glomex supplies the Avior VT300 with a heavy-duty nylon mount, an amplifier, and 33-foot and 5-foot lengths of coaxial cable for connection to the antenna and the TV. MSRP \$119; glomex.us

THE TORNADO BY ZOOMBROOM is a cordless air broom designed to clear out debris from outdoor areas on board quickly and easily. Its lightweight design and ergonomic handle make it easy to use, and storage is not a problem thanks to its compact size. A turbo-boost setting with a supercharged motor is available to handle the toughest debris. Standard battery life is 30 minutes, and it comes with a plug-in charger. MSRP \$175; zoombrooms.com

The **TELESCOPIC SHADE 2500** from **WEBASTO THERMO** provides boaters relief from the sun when they're out on the water. It is easy to install on a T-top, arch, or other overhead structure, where the electric-powered sunshade retracts discretely to be barely visible. Built for a marine environment, the shade has a patent-pending design with quick-drying, easy-to-clean fabric that resists fading, tears, and UV rays. Stainless steel tubing and castings are polished to a high gloss for a premium appearance and is available in widths customizable up to eight feet. Engineered for stability, the shade can remain fully extended while the boat is underway in moderate conditions. Price upon request; webasto-comfort.com

The **PINULTIMATE QUICK-RELEASE HITCH PIN** makes securing/

removing the hitch on your trailer faster and easier. The exclusive **ConnecTrick** push-button design quickly releases positive locking balls that protrude from the shaft detaching the cap on the opposite end. With the cap removed, the pin is free to slide in or out. To re-attach the cap, just depress the thumb button, and push the cap back in place. There are no clips or cross-stream maneuvers. The pin is made of premium titanium and the handle is fully CNC-machined from billet aluminum and treated with a UV-resistant Cerakote finish to further protect it from the elements. For those who want to lock their hitch, PinUltimate is fitted with a cylinder lock featuring a bidirectional key. Available in a standard 5/8-inch pin. It fits Class III, IV, and V hitches. MSRP \$199.95; pinultimate.com ↗
